X. RESEARCH

Research Project (active)

2024.

- Therapeutic Factors in Group Psychological Treatments: A Multicentre Study in Various Community Mental Health Settings. (Co-investigator. Principal Investigators: Arturo Rodríguez Rey, Alicia Ruiz Lasierra, UB, HCB, ICN). Period 2024-2025.

Other Research Lines

2023.

- Body and mind in crisis: its relation with traumatic experiences, stress and clinical efficacy of Crisis intervention program in Day Hospital. PÍCARO study. (Principal Investigator). Period: 2021-2023.

2019.

- Brain functional connectivity study under continuous audio-visual task in sickness behaviour and depression. CONDEPRE Study. (Co-Investigator. Principal Investigator: Dr. Ricard Navinés HCB, UB, Institut D'investigació Biomedica August Pi i Sunyer (IDIBAPS), Centro de Investigación en Red-Salud Mental (CIBERSAM). Financing: Instituto Carlos III. Ref. PI19/01086. Period: 2019 – 2021.
- Mood, cognition, inflammation and cerebral injury in chronic hepatitis-C patients treated with direct acting antivirals: multimodal neuroimaging study. Study PSICO-AAD. (Team Member. Principal Investigator: Dra. Rocío Martín-Santos, HCB, UB, IDIBAPS, CIBERSAM). Financing: Instituto Carlos III. Ref. PI17/02297. Period: 2017 – 2020.

2018.

- Brain metabolic and functional connectivity dysfunction in patients with chronic hepatitis-C and referability after viral eradication with direct acting antivirals. (Team Member. Principal Investigator: Zoe Mariño HCB, UB, Institut D'investigació Biomedica August Pi i Sunyer (IDIBAPS), Centro de Investigación en Red-Enfermedades hepáticas y digestivas (CIBEREHD). Financing: Gilead Fellowship. Ref. GLD17/00273. Period: 2017 – 2019.

2017.

- Alcohol consumption and cognitive impairment in incharged patients attended by Liaison psychiatric unit. (Team Member. Principal Investigator: Dr. Hugo Lopez, HCB, UB, IDIBAPS, CIBERSAM). Period: 2015 – 2017.

2016.

- *Obesite et symptomatologie neuropsychiatrique. Facteurs de vulnerabilite et mecanismes physiopathologiques et impliquees* (Obesity and neuropsychiatric symptoms. Vulnerability factors and involved physiopathological mechanisms). (Team Member. Principal Investigator: Dra. Lucile Capurón, Université de Bordeaux). Financing: INRA institut national de la recherche agronomique - centre de recherche de Bordeaux – Aquitaine. Ref. ANR-11-JSV1-0006. Period: 2011 – 2016.
- Observational, transversal, multicenter study to describe functionality of schizophrenic patients treated at least 6 months with Paliperidone Palmitate (Team Member. Principal investigator: Dr. Miguel Bernardo, HCB, UB, IDIBAPS, CIBERSAM). Financing: Janssen-Cilag. Ref. JAN-PAL-2015-01. Period: 2015 – 2017.

2015.

- “Multicenter longitudinal study of stress neurobiological markers in children and adolescents with psychosis risk syndrome” (Co-Investigator. Principal investigator: Dr. Immaculada Baeza, HCB, UB, IDIBAPS, CIBERSAM). Financing: Instituto Carlos III. Period: 2015 – 2017.

2014.

- Clinic trial: “Efficacy and safety of inhaled loxapine compared with im antipsychotic in acutely agitated patients with schizophrenia or bipolar disorder”.
Test Drug: “Inhaled loxapine (Adasuve®) A Phase IIIb, open-label, assessor-blind, randomised, active control, prospective, parallel group multicenter clinical trial assessing a single open-label 9.1 mg dose of inhaled loxapine”.
(Team Member. Principal investigator: Dr. Miguel Bernardo, HCB, UB, IDIBAPS, CIBERSAM). Financing: Ferrer. Ref. FCD-ADA-1401. Period: 2014 – 2016.

Estancias en centros de investigación.

2016.

- Four months internship (September – December) in Nutrition and Integrative Neurobiology Laboratory (Nutrineuro), INRA UMR Institute (University II of Bordeaux). Topic: relations between inflammation, metabolic diseases and mood disorders, working on data from pre-clinical research (animal models), and clinical research (patients with chronic hepatitis-C, obesity, type-II diabetes, cáncer and patients with antiviral treatment).

XI. GRANTS AND AWARDS

2019

- Grant from “*Fondo de Investigación en Salud (FIS) - Instituto de Salud Carlos III*”, as co-author of the Project “Brain functional connectivity study under continuous audio-visual task in sickness behaviour and depression. CONDEPRE Study.” (Principal Investigator: Dr. Ricard Navinés)

2018

- Poster Travel Award: “Chronic inflammation in hepatitis C patients is associated with increased perceived stress and abnormal connectivity between insula and basal ganglia”. First Author. (International Congress: 31st European Congress of Neuropsychopharmacology, organized by the European College of Neuropsychopharmacology - ECNP). (500€)

2017

- Grant “Emili-Letang” for one-year project “Longitudinal study of metabolic and inflammatory biomarkers in major depression”, provided by Hospital Clínic de Barcelona. (24.500€)

- Grant for pre-doctoral students to facilitate assistance to an international congress, provided by the Institute of Neuroscience of the Universidad de Barcelona. (460€)

2016.

- Best Clinical case poster award: Cognitive impairment induced by benzodiazepines and its reversibility: A case report. Co-author. (National Congress: VI Annual Therapeutics). (500€)
- Scholarship for internship in foreign countries, address to Residents in Psychiatry, announcement 2015-2016, provided by *Fundación Española de Psiquiatría y Salud Mental* (Spanish Psychiatry and Mental Health Foundation). (1800€)

2015.

- Best clinical case poster award: Diaphragmatic Flutter and Paraplegia as conversive Symptoms: A case report of a Neurology-Psychiatry interface disorder. First author. (National Congress: V Annual Therapeutics). (500€)
- Grant from “*Fondo de Investigación en Salud (FIS) - Instituto de Salud Carlos III*”, as co-author of the Project “Multicenter longitudinal study of stress neurobiological markers in children and adolescents with psychosis risk syndrome” (PI: Dr. Baeza I. 81.070 €)
